About Industrial Physics

Industrial Physics is one of the world's leading manufacturer of test, measurement and inspection equipment focused on the food and beverage, metal cans, flexible packaging, paper and plastics, paint and coatings, medical device, materials testing and consumer electronics markets. With sales

presence in more than 75 countries, our brands are helping customers meet the ever-increasing test and quality standards required by demanding regulators, consumers and manufacturers. Our best-in-class products help companies the world over protect their brand integrity.

EC900 Process Oxygen Analyser

This electronics oxygen analyzer is designed to accurately measure oxygen levels within most industrial gases and atmospheres. Used in applications from ppb up to 1000% O₂. Can be used in gas streams such as hydrogen, combustibles, hydrocarbons and inert gases.

Our Brands

With our nine portfolio companies, Industrial Physics is one of the world's largest manufacturer of packaging and material testing equipment.
